

. RV Park: A facility designed to accommodate recreational vehicles (RVs) for short-term or long-term stays.

1. Campground: An area equipped with spaces or sites for camping, which may include RV sites, tent sites, and amenities.
2. Full Hookup: A campsite that provides connections for water, electricity, and sewer for RVs.
3. Pull-Through Site: A campsite designed for RVs that allows for easy entry and exit without the need for backing up.
4. Back-In Site: A campsite where RVs need to be backed into the space for parking.
5. Dump Station: A designated area where RVers can dispose of their wastewater and sewage.
6. Amps: Refers to the electrical service available at a campsite, typically 30 amps or 50 amps.
7. Shore Power: Electricity provided to an RV from an external source, usually a campground's electrical hookup.
8. Slide-Out: A section of an RV that can be extended to increase interior living space.
9. Dry Camping: Camping without access to utility hookups, often in more rustic or primitive settings.
10. Boondocking: Camping in remote, undeveloped areas without access to traditional amenities or hookups.
11. Campsite Reservation: A prearranged booking of a campsite for a specific date and time.
12. Campground Host: A person or team responsible for managing and maintaining a campground.
13. KOA (Kampgrounds of America): A well-known chain of campgrounds and RV parks.
14. Campground Amenities: Facilities and services offered at a campground, such as showers, restrooms, laundry, and Wi-Fi.
15. Seasonal Site: A campsite that is rented for an extended period, often an entire season or year.
16. RV Resort: A high-end RV park with premium amenities and recreational facilities.
17. Overlanding: A form of self-reliant, off-grid travel that often involves camping in RVs or vehicles equipped for extended adventures.
18. Greywater: Wastewater from sinks, showers, and kitchen appliances in an RV.
19. Blackwater: Wastewater from toilets in an RV, typically held in a separate tank from greywater.
20. Dump Fee: The cost associated with using a dump station to empty RV sewage tanks.
21. Campfire Ring or Pit: A designated area for building and enjoying campfires.

These terms should help you navigate the world of RV parks and campgrounds more effectively and understand the jargon commonly used in the industry.
